| Product Description        | Myristoylamide Propylbetaine is an analog of Lauroylamide Betaine (L178620), used cosmetic and hair compositions of enhanced viscosity and clarity. Molecular Formula: C <sub>21</sub> H <sub>42</sub> N <sub>2</sub> O <sub>3</sub> Solubility: Chloroform (Slightly), DMSO (Slightly), Methanol (Slightly) ... |
| Molecular Weight           | 370.57                                                                                                                                                                                                                                                                                                           |
| Form                       | Supplied as a White Solid                                                                                                                                                                                                                                                                                        |
