| Product Description        | N-Methyl Pemetrexed L-Glutamic Acid-D3 is the deuterized labeled form of N-Methyl Pemetrexed L-Glutamic Acid, which is pemetrexed intermediate. Molecular Formula: C <sub>26</sub> H <sub>27</sub> D <sub>3</sub> N <sub>6</sub> O <sub>9</sub> Molecular Weight: 573.57 Storage and Stability: Store at -20C. For maximum... |
| Molecular Weight           | 573.57                                                                                                                                                                                                                                                                                                                        |
