| Product Description        | JAM2, also known as CD322, belongs to the immunoglobulin superfamily, and the junctional adhesion molecule (JAM) family. JAM2 is a type I membrane protein that is localized at the tight junctions of both epithelial and endothelial cells. It acts as a... |
| Molecular Weight           | 26.7                                                                                                                                                                                                                                                          |
| NCBI                       | <a href="#">067042</a>                                                                                                                                                                                                                                        |
| Purity                     | 95% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in 20mM Tris-HCl, pH 8.0, 0.4M urea, 10% glycerol.                                                                                                                                                                                       |
