| Product Description        | LRPAP1, also known as alpha-2-macroglobulin receptor-associated protein, belongs to the alpha-2-MRAP family. This protein interacts with LRP1/alpha-2-macroglobulin receptor and glycoprotein 330. It is present on the cell surface forming a complex wit... |
| Molecular Weight           | 40.4                                                                                                                                                                                                                                                          |
