| Product Description        | Piperonyl Methoxyethyl Ether is a selective inhibitor of the cytochrome P450-dependent monooxygenase from the housefly. Molecular Formula: C <sub>11</sub> H <sub>14</sub> O <sub>4</sub> Molecular Weight: 210.23 Storage and Stability: Store at -20C. For maximum recovery of product, centri... |
| Molecular Weight           | 210.23                                                                                                                                                                                                                                                                                              |
