| Product Description        | Acyl-CoA:glycine N-acyltransferase-like protein 1 Glutamine N-acyltransferase. Source: Recombinant protein corresponding to aa1-302 from human GLYATL1, fused to GST-Tag at N-terminal, expressed in E. coli. Molecular Weight: ~62.1kD Amino Acid Sequenc... |
| Molecular Weight           | 62.1                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q969I3</a>                                                                                                                                                                                                                                        |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
