| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Contributes to mitotic spindle assembly, maintenance of centrosome integrity and completion of cytokinesis as part of the HAUS augmin-like complex. Recombinant protein corresponding to aa1-363 from human HAUS4, fused to GST-Tag at N-terminal, express... |
| Molecular Weight           | 69.4                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q9H6D7</a>                                                                                                                                                                                                                                        |
| Purity                     | ~90% (SDS-PAGE)                                                                                                                                                                                                                                               |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
