| Product Description        | 1,3,6,8-Tetrachloro-2,7-dinitro-dibenzo[1,4]dioxin is an intermediate in the synthesis of 1,2,3,6,7,8-Hexachlorodibenzodioxin which is a toxic polychlorinated dibenzo-p-dioxin detected in domestic meat and poultry. Molecular Formula: C <sub>12</sub> H <sub>2</sub> Cl <sub>4</sub> N <sub>2</sub> O <sub>6</sub> Sol... |
| Molecular Weight           | 411.97                                                                                                                                                                                                                                                                                                                        |
| Form                       | Supplied as a Yellow Solid                                                                                                                                                                                                                                                                                                    |
| CAS Number                 | [89422-73-1]                                                                                                                                                                                                                                                                                                                  |
