| Product Description        | (17alpha)-17-Hydroxy-3-oxo-19-norpregn-5(10)-ene-21-nitrile is an impurity I of Dienogest (D441870) with progestational activity. Molecular Formula: C <sub>20</sub> H <sub>27</sub> NO <sub>2</sub> Molecular Weight: 313.43 Storage and Stability: Store at -20C. For maximum recovery of prod... |
| Molecular Weight           | 313.43                                                                                                                                                                                                                                                                                              |
