| Product Description        | 19-Noretiocholanolone Glucuronide is the glucuronide conjugate of 19-Noretiocholanolone (N675200), the main metabolite of nandrolone (N315000). Molecular Formula: C <sub>24</sub> H <sub>36</sub> O <sub>8</sub> Molecular Weight: 452.54 Storage and Stability: Store at -20C. For maximum rec... |
| Molecular Weight           | 452.54                                                                                                                                                                                                                                                                                              |
