| Product Description        | 2-(2R)-2-PiperidinyI-4-pyridinecarboxylic Acid is a useful synthetic intermediate. Molecular Formula: C <sub>11</sub> H <sub>14</sub> N <sub>2</sub> O <sub>2</sub> Molecular Weight: 206.24 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior to rem... |
| Molecular Weight           | 206.24                                                                                                                                                                                                                                                                                                           |
