| Manufacturer               | US Biological                                                                                                                                                                                                                                                                                        |
| Category                   | Biochemikalien                                                                                                                                                                                                                                                                                       |
| Product Description        | Synthetic reagent. Previously employed in literature as a component for the synthesis of both azo-dyes and pest control agents. Molecular Formula: C <sub>10</sub> H <sub>12</sub> ClNO <sub>5</sub> S Molecular Weight: 293.72000000000003 Storage and Stability: Store at -20C. For maximum rec... |
| Molecular Weight           | 293.72                                                                                                                                                                                                                                                                                               |
