| Manufacturer               | US Biological                                                                                                                                                                                                                                                                                                    |
| Category                   | Biochemikalien                                                                                                                                                                                                                                                                                                   |
| Product Description        | 5,5-Diamino-[1,1-biphenyl]-2,2-diol is involved in a redox mechanism of p-aminophenol in non-aqueous media by FT-IR spectroelectrochem. Molecular Formula: C <sub>12</sub> H <sub>12</sub> N <sub>2</sub> O <sub>2</sub> Molecular Weight: 216.24 Storage and Stability: Store at -20C. For maximum recovery ... |
| Molecular Weight           | 216.24                                                                                                                                                                                                                                                                                                           |
