| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Substrate-specific adapter of a BCR (BTB-CUL3-RBX1) E3 ubiquitin ligase complex that acts as a negative regulator of Wnt signaling pathway and ER-Golgi transport. The BCR(KLHL12) complex is involved in ER-Golgi transport by regulating the size of COP... |
| Molecular Weight           | 70.7                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">Q53G59</a>                                                                                                                                                                                                                                        |
| Purity                     | 90% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in Tris, 50% glycerol                                                                                                                                                                                                                    |
