| Category                   | Molekularbiologie                                                                                                                                                                                                                                             |
| Product Description        | Source: Recombinant protein corresponding to aa1-303 from Gossypium hirsutum homeobox protein knotted-1-like 6, fused to GST-Tag at N-terminal, expressed in E.coli. Molecular Weight: ~60.9kD Amino Acid Sequence: MEEHYGYHSSVVYPMETTQPENVLSYLPVVNYSTQPPA... |
| Molecular Weight           | 60.9                                                                                                                                                                                                                                                          |
| UniProt                    | <a href="#">A0A1U8MMN4</a>                                                                                                                                                                                                                                    |
| Purity                     | 85% (SDS-PAGE)                                                                                                                                                                                                                                                |
| Form                       | Supplied as a lyophilized powder from 20mM Tris-HCl, 0.5M sodium chloride, pH 8.0, 6% trehalose. Reconstitute with sterile ddH2O to a concentration of 0.1-1mg/ml.                                                                                            |
