| Alternative Catalog Number | USB-D3810-03B-200                                                                                                                                                                                                                                             |
| Manufacturer               | US Biological                                                                                                                                                                                                                                                 |
| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | ELISA, IHC, WB                                                                                                                                                                                                                                                |
| Immunogen                  | Peptide corresponding to a sequence selected for the C-terminal region of human DKK2.                                                                                                                                                                         |
| Product Description        | The 259aa DKK2 protein, like DKK1, DKK3, and DKK4, possesses an N-terminal signal peptide and 2 conserved cysteine-rich domains, which are separated by a linker region and contain 10 cys residues each. The second cys region has a putative lipid-bindi... |
| UniProt                    | <a href="#">Q9UBU2</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by Protein G affinity chromatography.                                                                                                                                                                                                                |
| Form                       | Supplied as a liquid in PBS, 0.09% sodium azide.                                                                                                                                                                                                              |
