| Host                       | Rabbit                                                                                                                                                                                                                                                        |
| Category                   | Antikörper                                                                                                                                                                                                                                                    |
| Application                | FC, IF, WB                                                                                                                                                                                                                                                    |
| Immunogen                  | Synthetic peptide corresponding to amino acids surrounding Pro240 of human INCENP.                                                                                                                                                                            |
| Product Description        | INCENP (inner centromere protein antigens 135kD, 155kD) is a chromosomal passenger protein crucial for multiple events that mediate chromosome separation during mitosis (1). At prophase INCENP is associated with chromatin whereas during prometaphase ... |
| UniProt                    | <a href="#">Q9NQS7</a>                                                                                                                                                                                                                                        |
| Purity                     | Purified by peptide affinity chromatography.                                                                                                                                                                                                                  |
| Form                       | Supplied as a liquid in 10mM HEPES, pH 7.5, 150mM sodium chloride, 0.1mg/ml BSA, 50% glycerol.                                                                                                                                                                |
