Senescence beta-Galactosidase Staining Kit ASC-KTA3030

Article Name	Senescence beta-Galactosidase Staining Kit
Biozol Catalog Number	ASC-KTA3030
Supplier Catalog Number	KTA3030
Alternative Catalog Number	ASC-KTA3030-100
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Product Description	Senescence beta-galactosidase staining kit provides a simple and convenient operation method for staining detection of senescent cells or tissues, This kit only stains senescent cells, and does not stain pre-senescence cells (senescent cells), quiesc...
Tag	beta-Galactosidase
Application Notes	Senescence beta-Galactosidase Staining Kit provide reagents for detecting the senescent cells or tissues based on the up-regulation of senescence-associated beta-galactosidase (SA-beta-Gal) activity at pH 6 during aging. The aging of cells or tissues can be observed under a common optical microscope. SA-beta-Gal is present only in senescent cells and is undetectable in presenescent, quiescent, tumor or immortal cells.
