CheKine(TM) Micro Mitochondrial complexII Activity Assay Kit ASC-KTB1860

Article Name	CheKine(TM) Micro Mitochondrial complexII Activity Assay Kit
Biozol Catalog Number	ASC-KTB1860
Supplier Catalog Number	KTB1860
Alternative Catalog Number	ASC-KTB1860-48, ASC-KTB1860-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Product Description	Abbkine CheKine(TM) Micro Mitochondrial Complex Activity Detection Kit is specially developed for the detection of complex I activity. The operation is simple and convenient, and the detection is more sensitive and accurate....
Tag	complexII
Application Notes	Abbkine CheKine(TM) Micro Mitochondrial Complex II Activity Detection Kit is specially developed for the detection of complex I activity. The operation is simple and convenient, and the detection is more sensitive and accurate. The reduced coenzyme Q, which is the catalytic product of the mitochondrial respiratory chain complex II, can further reduce 2,6-dichloroindoxyl, which has a characteristic absorption peak at 605 nm. So, the activity of complex II could be calculated according to the decrease rate of 2,6-dichloroindoxyl.
