CheKine(TM) Micro Mitochondrial complex III Activity Assay Kit ASC-KTB1870

Article Name	CheKine(TM) Micro Mitochondrial complex III Activity Assay Kit
Biozol Catalog Number	ASC-KTB1870
Supplier Catalog Number	KTB1870
Alternative Catalog Number	ASC-KTB1870-48, ASC-KTB1870-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Product Description	Abbkine CheKine(TM) Micro Mitochondrial Complex III Activity Detection Kit is specially developed for the detection of complex I activity. The operation is simple and convenient, and the detection is more sensitive and accurate....
Tag	complex III
Application Notes	Abbkine CheKine(TM) Micro Mitochondrial Complex III Activity Detection Kit is specially developed for the detection of complex I activity. The operation is simple and convenient, and the detection is more sensitive and accurate. Complex III could transfer the hydrogen from reduced CoQ to cytochrome C to produce reduced cytochrome C. Unlike oxidized cytochrome C, reduced cytochrome C has characteristic light absorption at 550 nm. So, the increasing of light absorption rate can reflect the activity of Complex III enzymes, and Abbkine CheKine(TM) Micro Mitochondrial complex III Activity Assay Kit can detect animal and plant tissues and cell samples.
