### **CheKine(TM) Micro Serum Potassium (K+) Assay Kit ASC-KTB2100**

Article Name	CheKine(TM) Micro Serum Potassium (K+) Assay Kit
Biozol Catalog Number	ASC-KTB2100
Supplier Catalog Number	KTB2100
Alternative Catalog Number	ASC-KTB2100-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Product Description	Abbkine CheKine(TM) Micro Serum Potassium (K+) Assay Kit is designed for detecting Potassium (K+) in the sample....
Tag	K+
Application Notes	The kit provides a simple method for detecting Potassium (K+) in serum samples. In the assay, potassium ions (K+) react with sodium tetraphenylborate to form potassium tetraphenylborate which is insoluble in water and the turbidity produced is proportional to the potassium concentration within a certain range. So the serum potassium concentration can be determined by measuring its turbidity.
