| Category                   | Kits/Assays                                                                                                                                                                                                                                                   |
| Product Description        | CheKine(TM) Micro Sorbitol Dehydrogenase Assay Kit provides a simple, convenient and rapid SDH activity detection method, which is suitable for the detection of animal and plant tissues, cells, bacteria, serum (plasma) and other samples. The detectio... |
| Tag                        | SDH                                                                                                                                                                                                                                                           |
| Application Notes          | The kit provides a simple method for detecting Sorbitol Dehydrogenase activity in a variety of biological samples such as serum, plasma, tissues, cells , plants and bacteria.                                                                                |
