Product Datasheet

EliKine(TM) Human HGF ELISA Kit ASC-KTE6009

Article Name	EliKine(TM) Human HGF ELISA Kit
Biozol Catalog Number	ASC-KTE6009
Supplier Catalog Number	KTE6009
Alternative Catalog Number	ASC-KTE6009-48, ASC-KTE6009-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	EliKine(TM) Human HGF ELISA Kit employs a two-site sandwich ELISA to quantitate Human HGF....
Range	125 pg/mL-8000 pg/mL
Sensitivity	60 pg/mL
Tag	HGF
NCBI	3082
UniProt	P14210
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes	<p>EliKine(TM) Human HGF ELISA Kit employs a two-site sandwich ELISA to quantitate HGF in samples. An antibody specific for HGF has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any HGF present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for HGF is added to the wells. After washing, proprietary EliKine(TM) Streptavidin-HRP conjugates is added to the wells. Following a wash to remove any unbound streptavidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of HGF bound in the initial step. The color development is stopped and the intensity of the color is measured.</p>
