## Product Datasheet

### Human Carnitine-acylcarnitine translocase (CACT) ELISA Kit ASC-KTE60612

Article Name	Human Carnitine-acylcarnitine translocase (CACT) ELISA Kit
Biozol Catalog Number	ASC-KTE60612
Supplier Catalog Number	KTE60612
Alternative Catalog Number	ASC-KTE60612-48, ASC-KTE60612-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Carnitine-acylcarnitine translocase (CACT) ELISA Kit employs a two-site sandwich ELISA to quantitate SLC25A20....
Range	Please inquire
Sensitivity	Please inquire
Tag	SLC25A20
NCBI	<a href="#">788</a>
UniProt	<a href="#">O43772</a>
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Carnitine-acylcarnitine translocase (CACT) ELISA Kit employs a two-site sandwich ELISA to quantitate SLC25A20 in samples. An antibody specific for SLC25A20 has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any SLC25A20 present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for SLC25A20 is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of SLC25A20 bound in the initial step. The color development is stopped and the intensity of the color is measured.
