Product Datasheet

Human Renin precursor (RENK) ELISA Kit ASC-KTE60807

Article Name	Human Renin precursor (RENK) ELISA Kit
Biozol Catalog Number	ASC-KTE60807
Supplier Catalog Number	KTE60807
Alternative Catalog Number	ASC-KTE60807-48, ASC-KTE60807-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Renin precursor (RENK) ELISA Kit employs a two-site sandwich ELISA to quantitate RENK....
Range	Please inquire
Sensitivity	Please inquire
Tag	RENK
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Renin precursor (RENK) ELISA Kit employs a two-site sandwich ELISA to quantitate RENK in samples. An antibody specific for RENK has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any RENK present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for RENK is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of RENK bound in the initial step. The color development is stopped and the intensity of the color is measured.
