## Product Datasheet

### Human Protein quaking (QKI) ELISA Kit ASC-KTE61006

Article Name	Human Protein quaking (QKI) ELISA Kit
Biozol Catalog Number	ASC-KTE61006
Supplier Catalog Number	KTE61006
Alternative Catalog Number	ASC-KTE61006-48, ASC-KTE61006-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Protein quaking (QKI) ELISA Kit employs a two-site sandwich ELISA to quantitate QKI....
Range	Please inquire
Sensitivity	Please inquire
Tag	QKI
NCBI	<a href="#">9444</a>
UniProt	<a href="#">Q96PU8</a>
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Protein quaking (QKI) ELISA Kit employs a two-site sandwich ELISA to quantitate QKI in samples. An antibody specific for QKI has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any QKI present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for QKI is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of QKI bound in the initial step. The color development is stopped and the intensity of the color is measured.
