## Product Datasheet

### Human Probable N-acetyltransferase 8B (NAT8B) ELISA Kit ASC-KTE61363

Article Name	Human Probable N-acetyltransferase 8B (NAT8B) ELISA Kit
Biozol Catalog Number	ASC-KTE61363
Supplier Catalog Number	KTE61363
Alternative Catalog Number	ASC-KTE61363-48, ASC-KTE61363-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Probable N-acetyltransferase 8B (NAT8B) ELISA Kit employs a two-site sandwich ELISA to quantitate NAT8B....
Range	Please inquire
Sensitivity	Please inquire
Tag	NAT8B
NCBI	<a href="#">51471</a>
UniProt	<a href="#">Q9UHF3</a>
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Probable N-acetyltransferase 8B (NAT8B) ELISA Kit employs a two-site sandwich ELISA to quantitate NAT8B in samples. An antibody specific for NAT8B has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any NAT8B present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for NAT8B is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of NAT8B bound in the initial step. The color development is stopped and the intensity of the color is measured.
