Product Datasheet

Human Myosin-Ic (MYO1C) ELISA Kit ASC-KTE61424

Article Name	Human Myosin-Ic (MYO1C) ELISA Kit
Biozol Catalog Number	ASC-KTE61424
Supplier Catalog Number	KTE61424
Alternative Catalog Number	ASC-KTE61424-48, ASC-KTE61424-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Myosin-Ic (MYO1C) ELISA Kit employs a two-site sandwich ELISA to quantitate MYO1C....
Range	Please inquire
Sensitivity	Please inquire
Tag	MYO1C
NCBI	4641
UniProt	O00159
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Myosin-Ic (MYO1C) ELISA Kit employs a two-site sandwich ELISA to quantitate MYO1C in samples. An antibody specific for MYO1C has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MYO1C present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MYO1C is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MYO1C bound in the initial step. The color development is stopped and the intensity of the color is measured.
