Product Datasheet

Human Membrane IgM (mIgM) ELISA Kit ASC-KTE61614

Article Name	Human Membrane IgM (mIgM) ELISA Kit
Biozol Catalog Number	ASC-KTE61614
Supplier Catalog Number	KTE61614
Alternative Catalog Number	ASC-KTE61614-48, ASC-KTE61614-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Membrane IgM (mIgM) ELISA Kit employs a two-site sandwich ELISA to quantitate mIgM....
Range	Please inquire
Sensitivity	Please inquire
Tag	mIgM
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Membrane IgM (mIgM) ELISA Kit employs a two-site sandwich ELISA to quantitate mIgM in samples. An antibody specific for mIgM has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any mIgM present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for mIgM is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of mIgM bound in the initial step. The color development is stopped and the intensity of the color is measured.
