Product Datasheet

Human MHC class I polypeptide-related sequence B (MICB) ELISA Kit ASC-KTE61624

Article Name	Human MHC class I polypeptide-related sequence B (MICB) ELISA Kit
Biozol Catalog Number	ASC-KTE61624
Supplier Catalog Number	KTE61624
Alternative Catalog Number	ASC-KTE61624-48, ASC-KTE61624-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	Human MHC class I polypeptide-related sequence B (MICB) ELISA Kit employs a two-site sandwich ELISA to quantitate MICB in samples....
Range	3 pg/mL-48 pg/mL
Sensitivity	0.1 pg/mL
Tag	MICB
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

Human MHC class I polypeptide-related sequence B (MICB) ELISA Kit employs a two-site sandwich ELISA to quantitate MICB in samples. An antibody specific for MICB has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MICB present is bound by the immobilized antibody. After removing any unbound substances, HRP-Conjugate Human MICB detection antibody is added to the wells. Following a wash to remove any unbound HRP reagent, a Chromogen solution is added to the wells and color develops in proportion to the amount of MICB bound in the initial step. The color development is stopped and the intensity of the color is measured.
