Product Datasheet

Human Hepatocyte growth factor receptor (c-MET/HGFR) ELISA Kit ASC-KTE61644

Article Name	Human Hepatocyte growth factor receptor (c-MET/HGFR) ELISA Kit
Biozol Catalog Number	ASC-KTE61644
Supplier Catalog Number	KTE61644
Alternative Catalog Number	ASC-KTE61644-48, ASC-KTE61644-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Hepatocyte growth factor receptor (c-MET/HGFR) ELISA Kit employs a two-site sandwich ELISA to quantitate MET....
Range	Please inquire
Sensitivity	Please inquire
Tag	MET
NCBI	4233
UniProt	P08581
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Hepatocyte growth factor receptor (c-MET/HGFR) ELISA Kit employs a two-site sandwich ELISA to quantitate MET in samples. An antibody specific for MET has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any MET present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for MET is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of MET bound in the initial step. The color development is stopped and the intensity of the color is measured.
