Product Datasheet

Human Formylmethionine (fMET) ELISA Kit ASC-KTE62623

Article Name	Human Formylmethionine (fMET) ELISA Kit
Biozol Catalog Number	ASC-KTE62623
Supplier Catalog Number	KTE62623
Alternative Catalog Number	ASC-KTE62623-48, ASC-KTE62623-96
Manufacturer	Abbkine Scientific
Category	Kits/Assays
Application	ELISA
Species Reactivity	Human
Product Description	This Human Formylmethionine (fMET) ELISA Kit employs a two-site sandwich ELISA to quantitate fMET....
Range	Please inquire
Sensitivity	Please inquire
Tag	fMET
Samples	Cell culture supernatantsSerumPlasmaOther biological fluids

Application Notes

This Human Formylmethionine (fMET) ELISA Kit employs a two-site sandwich ELISA to quantitate fMET in samples. An antibody specific for fMET has been pre-coated onto a microplate. Standards and samples are pipetted into the wells and any fMET present is bound by the immobilized antibody. After removing any unbound substances, a biotin-conjugated antibody specific for fMET is added to the wells. After washing, Streptavidin conjugated Horseradish Peroxidase (HRP) is added to the wells. Following a wash to remove any unbound avidin-enzyme reagent, a substrate solution is added to the wells and color develops in proportion to the amount of fMET bound in the initial step. The color development is stopped and the intensity of the color is measured.
