## Product Datasheet

### **Phospho-Histone H3 (Ser10) (Clone: 4B6) rabbit mAb APC conjugate, Clone: [HisH3S10-4B6], Rabbit, Monoclonal ABI-12-4056-10**

|                            |                                                                                                                                                                                                                                                               |

| Species Reactivity         | Human                                                                                                                                                                                                                                                         |
| Immunogen                  | A synthetic phospho-peptide corresponding to residues surrounding Ser10 of human phospho histone H3                                                                                                                                                           |
| Conjugation                | APC                                                                                                                                                                                                                                                           |
| Product Description        | Histones are highly conserved proteins that serve the core of nucleosomes, which serve to organize chromatin fiber for DNA packing. Histone H3 phosphorylation plays a major role in both transcriptional activation, which requires unpacking of the chro... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [HisH3S10-4B6]                                                                                                                                                                                                                                                |
| Form                       | Conjugated                                                                                                                                                                                                                                                    |

|                    |                                                                                                                                                                                                                                                                |

| Application Dilute | For flow cytometric staining, the suggested use of this reagent is 5 $\mu\text{L}$ per million cells or 5 $\mu\text{L}$ per 100 $\mu\text{L}$ of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
