## Product Datasheet

### **Phospho-EGFR (Tyr1068) (Clone: E5) rabbit mAb PE conjugate, Clone: [EGFRY1068-E5], Rabbit, Monoclonal ABI-12-4069-10**

|                            |                                                                                                                                                                                                                                                               |

| Species Reactivity         | Human, Mouse, Rat                                                                                                                                                                                                                                             |
| Immunogen                  | A synthetic phospho-peptide corresponding to residues surrounding Tyr1068 of human phospho EGFR.                                                                                                                                                              |
| Conjugation                | PE                                                                                                                                                                                                                                                            |
| Product Description        | The epidermal growth factor receptor (EGFR, ErbB-1, HER1 in humans) is a transmembrane protein that is a receptor for members of the epidermal growth factor family (EGF family) of extracellular protein ligands (1). EGFR (rbB-1) is closely related to ... |
| Clonality                  | Monoclonal                                                                                                                                                                                                                                                    |
| Clone Designation          | [EGFRY1068-E5]                                                                                                                                                                                                                                                |
| Form                       | Conjugated                                                                                                                                                                                                                                                    |

|                    |                                                                                                                                                                                                                                                                |

| Application Dilute | For flow cytometric staining, the suggested use of this reagent is 5 $\mu\text{L}$ per million cells or 5 $\mu\text{L}$ per 100 $\mu\text{L}$ of staining volume. It is recommended that the reagent be titrated for optimal performance for each application. |
