| Alternative Catalog Number | ABI-32-5416-0.5MG                                                                                                                                                                                                                                             |
| Manufacturer               | Abeomics                                                                                                                                                                                                                                                      |
| Category                   | Proteine/Peptide                                                                                                                                                                                                                                              |
| Product Description        | Source : The E.coli derived recombinant protein contains the HCV core nucleocapsid immunodominant regions, amino acids 2-119. The protein is fused to a GST Tag at N-terminus. HCV is a small 50nm, enveloped, single-stranded, positive sense RNAvirus in... |
| Purity                     | HCV Core Genotype-3b protein is >95% pure as determined by 10% PAGE (coomassie staining).                                                                                                                                                                     |
| Antibody Type              | Recombinant Antibody                                                                                                                                                                                                                                          |
