| Manufacturer               | Focus Biomolecules                                                                                                                                                                      |
| Category                   | Biochemikalien                                                                                                                                                                          |
| Product Description        | VEGF R kinase inhibitor...                                                                                                                                                              |
| Molecular Weight           | 390.52                                                                                                                                                                                  |
| Purity                     | >98% by TLC, NMR (Conforms)                                                                                                                                                             |
| Form                       | Pale yellow solid                                                                                                                                                                       |
| CAS Number                 | [168835-82-3]                                                                                                                                                                           |
| Formula                    | C25H30N2O2                                                                                                                                                                              |
| Application Notes          | Potent, reversible, selective inhibitor of VEGFR-2, also known as Flk-1 (IC50 = 700 nM). Inhibition of VEGFR-2 blocks angiogenesis in both in vitro and in vivo models. Cell permeable. |
