| Category                   | Kits/Assays                                                                                                                                                                                                                                          |
| Application                | ELISA                                                                                                                                                                                                                                                |
| Species Reactivity         | Rat                                                                                                                                                                                                                                                  |
| Product Description        | This Rat Amyloid Beta Peptide 1-40 (Ab1-40) ELISA Kit is a precoated, Competitive Inhibition ELISA assay designed to detect and quantify the target analyte in serum, plasma and other biological fluids . This product is for Research Use Only.... |
| Range                      | 31.25-2000pg/mL                                                                                                                                                                                                                                      |
| Sensitivity                | 11.6pg/mL                                                                                                                                                                                                                                            |
| Samples                    | serum, plasma and other biological fluids                                                                                                                                                                                                            |
| Target                     | Rat Amyloid Beta Peptide 1-40 (Ab1-40)                                                                                                                                                                                                               |
| Application Notes          | Assay Length: 4.5 hours. Experimental Method: Competitive Inhibition                                                                                                                                                                                 |
