| Category                   | Kits/Assays                                                                                                                                                                                                                                                                            |
| Application                | ELISA                                                                                                                                                                                                                                                                                  |
| Species Reactivity         | Human                                                                                                                                                                                                                                                                                  |
| Product Description        | This Human ATPase, Na <sup>+</sup> /K <sup>+</sup> Transporting Beta 4 Polypeptide (ATP1b4) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in tissue homogenates, cell lysates and other biological fluids . This product is for... |
| Range                      | 0.312-20ng/mL                                                                                                                                                                                                                                                                          |
| Sensitivity                | 0.106ng/mL                                                                                                                                                                                                                                                                             |
| Samples                    | tissue homogenates, cell lysates and other biological fluids                                                                                                                                                                                                                           |
| Target                     | Human ATPase, Na <sup>+</sup> /K <sup>+</sup> Transporting Beta 4 Polypeptide (ATP1b4)                                                                                                                                                                                                 |
| Application Notes          | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                                                                 |
