| Species Reactivity         | Rat                                                                                                                                                                                                                                                           |
| Product Description        | This Rat Fibroblast Growth Factor 21 (FGF21) ELISA Kit is a precoated, Sandwich ELISA assay designed to detect and quantify the target analyte in serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids .... |
| Range                      | 1.56-100pg/mL                                                                                                                                                                                                                                                 |
| Sensitivity                | 0.69pg/mL                                                                                                                                                                                                                                                     |
| Samples                    | serum, plasma, tissue homogenates, cell lysates, cell culture supernatants and other biological fluids                                                                                                                                                        |
| Target                     | Rat Fibroblast Growth Factor 21 (FGF21)                                                                                                                                                                                                                       |
| Application Notes          | Assay Length: 4.5 hours. Experimental Method: Sandwich                                                                                                                                                                                                        |
