| Alternative Catalog Number | RDD-RDSA55109-100                                                                                                  |
| Manufacturer               | reddot Biotech                                                                                                     |
| Host                       | Mouse                                                                                                              |
| Category                   | Antikörper                                                                                                         |
| Application                | FC, WB                                                                                                             |
| Species Reactivity         | Human, Mouse, Porcine, Rat                                                                                         |
| Immunogen                  | Recombinant fragment, corresponding to amino acids 270-435aa of human HK2(N-terminus).                             |
| Conjugation                | Unconjugated                                                                                                       |
| Product Description        | This is a Hexokinase-2( N-term) Monoclonal Antibody from Reddot Biotech. This product is for Research Use Only.... |
| Clonality                  | Monoclonal                                                                                                         |
| Isotype                    | IgG1                                                                                                               |
| Buffer                     | Buffer containing 0.1M Tris-Glycine (pH 7.4, 150 mM NaCl) with 0.2% sodium azide, 50%,glycerol                     |
