| Conjugation                | Unconjugated                                                                                                                                                                                                                                                  |
| Product Description        | Required for DNA repair. Binds to DDB2 to form the UV-damaged DNA-binding protein complex (the UV-DDB complex). The UV-DDB complex may recognize UV-induced DNA damage and recruit proteins of the nucleotide excision repair pathway (the NER pathway) to... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                    |
| Molecular Weight           | Calculated MW: 127 kDa, Observed MW: 127 kDa                                                                                                                                                                                                                  |
