| Product Description        | The protein encoded by this gene is a member of the dynamin superfamily of GTPases. Members of the dynamin-related subfamily, including the <i>S. cerevisiae</i> proteins Dnm1 and Vps1, contain the N-terminal tripartite GTPase domain but do not have the plec... |
| Clonality                  | Polyclonal                                                                                                                                                                                                                                                           |
| Molecular Weight           | Calculated MW: 82 kDa, Observed MW: 82 kDa                                                                                                                                                                                                                           |
