| Manufacturer               | US Biological                                                                                                                                                                           |
| Category                   | Biochemikalien                                                                                                                                                                          |
| Product Description        | Ranolazine is an anti-ischemic agent which modulates myocardial metabolism. Antianginal. Form: White Solid Melting Point: 113-116C Solubility: Chloroform, Dichloromethane, Methanol... |
| Molecular Weight           | 430.56                                                                                                                                                                                  |
| Form                       | White Solid                                                                                                                                                                             |
| CAS Number                 | [1054624-77-9]                                                                                                                                                                          |
