| Category                   | Biochemikalien                                                                                                                                   |
| Product Description        | Valsartan n-Propyl is an impurity in the synthesis of Valsartan. Form: Off-White Solid Melting Point: >149C (dec.) Solubility: DMSO, Methanol... |
| Molecular Weight           | 421.49                                                                                                                                           |
| Form                       | Off-White Solid                                                                                                                                  |
| CAS Number                 | [952652-79-8]                                                                                                                                    |
