| Product Description        | 1-Chloro-9,10-bis(phenylethynyl)anthracene is a substituted polycyclic aromatic hydrocarbon. This reagent is used in chemiluminescence research. May discolor on exposure to light. Molecular Formula: C <sub>30</sub> H <sub>17</sub> Cl Molecular Weight: 412.91 Storage and Stabi... |
| Molecular Weight           | 412.91                                                                                                                                                                                                                                                                                  |
