| Product Description        | 11,12-Dihydro-cyclopenta[no]benz[a]anthracen-12-ol is an intermediate in synthesizing Benz[ <i>l</i> ]aceanthrylene (B183405), which is a mutagenic agent. Molecular Formula: C <sub>20</sub> H <sub>14</sub> O Solubility: Methanol Molecular Weight: 270.32 Storage and Stability: Store at... |
| Molecular Weight           | 270.32                                                                                                                                                                                                                                                                                           |
| Form                       | Supplied as a Light Yellow Solid                                                                                                                                                                                                                                                                 |
