| Product Description        | Tripetroselaidin is used in the study of polymorphism of triglycerides. Molecular Formula: C <sub>57</sub> H <sub>104</sub> O <sub>6</sub> Molecular Weight: 885.43 Storage and Stability: Store at -20C. For maximum recovery of product, centrifuge the original vial prior to removing the c... |
| Molecular Weight           | 885.43                                                                                                                                                                                                                                                                                             |
