| Category                   | Biochemikalien                                                                                                                                    |
| Product Description        | A reagent which releases Nitric Oxide into aqueous solutions at controlled rates for in vitro studies. Form: White Solid Melting Point: 78-79C... |
| Molecular Weight           | 206.3                                                                                                                                             |
| Form                       | White Solid                                                                                                                                       |
| CAS Number                 | [56329-27-2]                                                                                                                                      |
