| Category                   | Molekularbiologie                                                                                                                                                                                                                                                |
| Application                | ELISA, WB                                                                                                                                                                                                                                                        |
| Product Description        | Source: Recombinant protein corresponding to Met1~Thr218 from mouse Dihydropyrimidinase Like Protein 3, fused to His-Tag at N-terminal, expressed in E. coli. Molecular Weight: ~28.0kD<br>Applications: Suitable for use in ELISA, Western Blot and SDS-PAGE... |
| Molecular Weight           | 28                                                                                                                                                                                                                                                               |
| UniProt                    | <a href="#">Q62188</a>                                                                                                                                                                                                                                           |
| Purity                     | 95%.                                                                                                                                                                                                                                                             |
| Form                       | Supplied as lyophilized powder from 20mM Tris, 150mM sodium chloride, pH 8.0, 0.01% sarcosyl, 5% trehalose. Reconstitute with sterile 20mM Tris, 150mM sodium chloride, pH 8.0 to a concentration of 0.1-1mg/ml. Do not vortex.                                  |
