| Product Description        | Derivative of aszonalenin, a substance P inhibitor. CAS Number: 908853-14-5 Molecular Weight: 415.4 Molecular Formula: C <sub>25</sub> H <sub>25</sub> N <sub>3</sub> O <sub>3</sub> Source: Neosartorya fischeri. Solubility: Soluble in DMSO, methanol or ethanol. Form: Supplied as a white solid. Purity:... |
| Molecular Weight           | 415.4                                                                                                                                                                                                                                                                                                            |
| Purity                     | 95% (HPLC)                                                                                                                                                                                                                                                                                                       |
| Form                       | Supplied as a white solid.                                                                                                                                                                                                                                                                                       |
